About RIPE Meetings

RIPE 86 will be held from 22-26 May 2023, in Rotterdam, the Netherlands.

A RIPE Meeting takes place over multiple days and brings together Internet service providers, network operators and other interested parties from around the world to:

- Participate in discussions about the policies and procedures used by the RIPE NCC to allocate Internet number resources
- Participate in the RIPE Working Group sessions to discuss current technical and policy issues
- Share experiences, latest developments and best common practices
- Develop their network of peers in the Internet community

RIPE Meetings are open to everyone. They bring together people from different backgrounds, cultures, beliefs and genders. The RIPE community is unique and prides itself on providing a [safe, supportive and respectful environment](#).

Created: 27 Dec 2010 - Last updated: 31 Oct 2022 — [RIPE MEETING](#)

¿Con el Kodi? pero ¿eso qué es?

The screenshot shows the Kodi website's homepage. At the top is a navigation bar with the Kodi logo and links for News, Add-ons, Contribute, About, Store, Help, GitHub, Download, and Donate. The main banner features the headline "Kodi is the ultimate entertainment center" in large, bold letters. Below this, a sub-headline reads "Kodi brings your media to life with endless features, a beautiful interface, and ease of use." A "Tell Me More" button is centered on the banner. The section below the banner is titled "Got a smart TV? You ain't seen nothin' yet!" and contains a paragraph about Kodi's media capabilities. At the bottom, there are three columns: "Music" with a screenshot of the music interface, "Movies" with a screenshot of the movie interface, and "TV Shows" with a screenshot of the TV shows interface.

Kodi is the ultimate entertainment center

Kodi brings your media to life with endless features, a beautiful interface, and ease of use.

Tell Me More

Got a smart TV? You ain't seen nothin' yet!

Kodi puts your smart TV to shame. Kodi plays almost every kind of media you can find and looks great while doing it! Here are just a few things Kodi excels at:

Music

Your music collection has never looked this good! Support for almost every format, playlists, party mixes and more.

Movies

So much better than a pile of DVDs on a shelf. Kodi brings your movie collection to life with artwork, cast, genres and more.

TV Shows

Perfect for binge watching or the occasional catch up on your favourite show. Kodi keeps all your tv organised like nothing else.

Project Summary

Kodi Media Center is a free cross-platform media-player jukebox and entertainment hub. Kodi is open source (GPL) software available for Linux, Mac OS X and iOS, Microsoft Windows and Android operating-systems. Kodi can play a very complete spectrum of of multimedia formats, and featuring playlist, audio visualizations, slideshow, and weather forecast functions, together with a multitude of third-party plugins.

In a Nutshell, Kodi...

... has had 292,807 commits made by 5,181 contributors representing 10,800,526 lines of code

... is mostly written in C with an average number of source code comments

... has a well established, mature codebase maintained by a very large development team with stable Y-O-Y commits

... took an estimated 3,329 years of effort (COCOMO model) starting with its first commit in October, 1991 ending with its most recent commit 1 day ago

Plugins, Video addons

To download this Add-On, we highly recommend you do it via the user interface in Kodi. Simply look for the "Get More" button in the Add-Ons menu. If you want to install it manually, you can direct download from the platforms link that matches your platform then in Kodi look for the "Install via Zip" option.

Description	RIPE Meetings. This Add-on allows you to watch the RIPE Meetings videos from the RIPE website. More than 2,500 videos are available.
